Interactant

HCS Interactant®
EMR Module

Interactant EMR is a robust, web-based electronic medical records solution that's easy-to-use, offers unparalleled value in delivering improved quality and safety of care, and provides more accurate and comprehensive healthcare information electronically. It eases the burden of documentation, reduces medical errors, and promotes quality outcomes of care.

Broad Functionality – Better Care

Interactant EMR extends functionality and value beyond basic EMR including computerized physician order entry (CPOE), online medication administration records, and pharmacy integration. These capabilities lead to better coordinated care across disciplines. It helps verify medications and dosages for accurate dispensing, provides automatic alerts for drug interactions, and gives real-time mobile access to clinical information.

Ensure Compliance with Quality Measure Reporting

HCS has integrated the collection of Quality Measures (QM) in the Interactant EMR for patient assessment-based measures. The information captured within the EMR is immediately available for mandatory assessments including LTCH CARE Data Set and MDS. **Interactant EMR provides real-time reporting** of these measures prior to being submitted to CMS. This allows facilities to identify data entry issues and quality trends, and course correct quickly, versus waiting a quarter after reporting to view results. Interactant EMR lets you enter the data once, have it flow to assessments and notes to avoid duplicate entry, giving you the confidence of accurate support documentation for audits.

These added benefits include:

✔ **Better coordinated care** across disciplines

✔ **Integrated** with other Interactant modules

✔ **Verification of medications** and dosages for accurate dispensing

✔ **Automatic alerts** for potentially dangerous drug interactions

✔ **Real-time** web and mobile access to medical information for authorized staff

Components of Interactant EMR Include:

- ✓ Order management
- ✓ Progress notes
- ✓ Assessments
- ✓ Vitals

- ✓ Care Plans
- ✓ MDS
- ✓ LTCH CARE Data Set
- ✓ CPOE

- ✓ Physician access
- ✓ Pharmacy management
- ✓ Incident and accident

Interactant EMR Benefits at-a-Glance:

- ✓ Automate manual processes
- ✓ Reduce errors
- ✓ Streamline processes and workflows
- ✓ Save time & money
- ✓ Ensure compliance
- ✓ Interoperability

- ✓ Real-time access to patient information from any device
- ✓ Automated alerts for potentially dangerous drug interactions
- ✓ Better coordination of care across disciplines
- ✓ Interdisciplinary documentation
