

HCS Interactant® Financial Module

Comprehensive Support for Essential Business Management

In addition to delivering care, multi-site providers also have to maintain key business aspects operating efficiently and seamlessly throughout the organization. **Interactant Financial** delivers a variety of capabilities that automate business functions and streamline your departmental workflow and multi-facility consolidation of; general ledger, accounts payable, materials and facilities management to keep the health of your organization at high levels.

A single database supports all modules, which allows authorized users access to real-time data, and promotes proactive decision-making and trend analysis.

Interactant Financial Helps Manage:

- ✓ **General Ledger** - Provides a flexible definition of accounts with postings from all modules in real time. Both monetary and statistical information create a foundation for analysis and budgeting.
- ✓ **Accounts Payable** - Supports vendor information, invoicing, payment, and purchasing. This powerful tool is integrated with materials management and the purchase order process to deliver outstanding efficiency in supply management, payments, and invoices.
- ✓ **Human Resources** - Delivers an integrated approach to managing staff. The human resources component supports staff demographics including licensing, history, and incident information.
- ✓ **Materials Management** - Automates inventory control, par levels, and stock requisitions for accuracy and control of organization-wide purchases. Supplies can be charged using barcode technology, which automates the reordering process as necessary.
- ✓ **Facilities Management** - Enables you to track equipment maintenance requests and equipment information such as type, location, acquisition date, expected life, frequency of maintenance, and the person responsible for performing the maintenance.

Interactant Financial module delivers a variety of capabilities that automate business functions and streamline your departmental workflow.

Benefits:

- ✓ Enterprise-wide financial reporting
- ✓ Departmental budgeting
- ✓ Seamless integration with Interactant EMR's clinical components
- ✓ Materials and facilities management
- ✓ Fully integrated census/ADT functionality
