

# HCS Interactant<sup>®</sup> Insight Module

Having the right information at the right time is critical to delivering quality care and ensuring your revenue cycle is at peak performance. **Interactant Insight** is a dynamic reporting and analytics module that provides a global view of business operations and data visualization through easily accessible reports and graphs. It helps you answer strategic questions, build better processes, and make decisions that drive real improvement.

This dynamic module contains dedicated reporting and analytics, which provide a global view of business operations and data through easily accessible reports and graphs. Insight summarizes your data efficiently, enabling you to interpret at a glance.

The result? Meaningful and customizable views of operational and EMR data enables you to evaluate trends and make timely business and clinical decisions. Tabular and interactive graphs as well as standard and customizable reports offer data views by facility, facility groups, or corporate level.

Interactant Insight module provides you and your staff with multiple views to facilitate trending and analytics and to support powerful reporting and informed decision-making:

## Insight Reporting

- ✓ Easy data sort and export
- ✓ Add/remove any data element
- ✓ Key Performance Indicators (KPIs)
- ✓ Interactive charts/graphs

## Insight Analytics

- ✓ Powerful data analytics extraction utility
- ✓ Extract data from predefined data sets of key fields
- ✓ Filter records based on user-defined criteria
